

Testimonials

We love our customers. Here's what they have to say about us...

"I am a sole business owner of a law practice. BDPNetworks' computer/hardware/software support for my business has been invaluable. They have an understanding of my business and personal computer needs and abilities and tailor the support they provide accordingly. They have shown to be readily available for both emergencies and on-going maintenance and upkeep, and give advice on the purchase and set up of new hardware and programs. Their insights into my business needs and rapid responsiveness have allowed me to put absolute trust in their work and advice. I have found BDPNetworks' professionalism and work far superior to prior support organizations I have worked with, both for my own business and in larger law firms where I have worked.

I would not hesitate to recommend BDPNetworks to any business or person in need of computer/hardware/software support."

- Mardi J. Boss
Attorney at Law
Seattle, WA

"...Corporate announced a world-wide major downsizing. Our product is still #1 in the world and we weren't going to give up. BDPNetworks worked in extreme situations right alongside the rest of us... Large amounts of computers and monitors and cables had to be checked and inventoried and packed or dumped. Their white colored jobs had turned blue; like the color in our faces from past shouts for help.

BDPNetworks saw a vast display of BROKEN and did not flinch. From the sweat of the move to the calculations of an affordable upgrade plan, BDPNetworks declared: we would HELP you get FIXED. "YES" we will help you.

From the executive suite to the facilities office - production started flowing, computers were working, and morale was lifting. We are getting back on our feet and the jobs are coming in!

BDPNetworks is testimony to quality. BDPNetworks is why this has been compassionately written and why recommending BDPNetworks brings a heartfelt smile to my face."

- Carolyn V. Watkins
Assistant to the Vice President & General Manager
GE Infrastructure Water & Process Technologies
Bellevue, WA

"After having my own business for 10 years, it was nice to finally find a networking support company that is incredibly responsive and trustworthy. As a small business, I don't have the flexibility of having a lot of network downtime -- and BDPNetworks has insured that my time be focused on my clients and new business development. One less worry, one great partner!"

- Mark Dyce
Managing Partner
ZigZagIt Marketing LLC
Seattle, WA

"Brian Place and the staff at BDPNetworks are professional, knowledgeable and a pleasure to work with. BDPNetworks is very proactive. They keep our systems current with all the latest technical advances and software updates. Our computers are secure, stable and help us to be more efficient. We can focus on our work with the peace of mind that our data is safe. With BDPNetworks, we have a true business partner."

- Cathleen Donohue
Office Manager
Leen & O'Sullivan, PLLC
Seattle, WA

"...Brian Place saved the day for me. If it weren't for him, our mentors would not have had their handbooks at our training. I had finished my final draft (from home) and was just about to print it when Word crashed and I could no longer find my document in my home directory. I called Brian and he promptly found my entire document, fixed my sync issue, and remedied another problem I'd been having with email.

Yay for Brian Place!"

- Charmell Slaughter
TechREACH Outreach Coordinator
Puget Sound Center for Teaching, Learning & Technology
Bothell, WA

"We are extremely satisfied with BDPNetworks' service during the past three years. As one of their oldest customers we have entrusted our computer system to them and they have kept things in optimum condition.

We hope to continue doing business with BDPNetworks for many years to come."
